18 July 1952

MEMORANDUM FOR FILE

FROM : [REDACTED]  
SUBJECT : Summer Area Program -  
South East Asia Section

The final solution to the problems which developed through the mistakes in bringing Professors [REDACTED] on board, were clarified in the following manner on Monday, 14 July 1952.

1. [REDACTED] met with the professors in a group and explained that a mistake had been made in carrying out processing procedures, and

- a. That the professors would be paid by SAIS (and not by CIA as might have been inferred by their signing the contracts).
- b. The professors were requested to return the contracts that had been signed to the Office of Personnel.
- c. Mr. [REDACTED] state-  
ment by letter.

2. The actions on the four professors were cancelled by Personnel but at the same time I & S O was notified not to cancel their clearances.

NOTES: (1) Again the distinction is made that these four professors differ from other consultants in their relationship to the Agency in that while they are giving courses to CIA personnel in CIA buildings and therefore require full clearance by Security, they are not in fact employed by the Agency but by SAIS.

(2) On the other hand, Professor [REDACTED] giving courses on the Soviet section of the Summer Area Program, is a regular consultant of the Agency, as will be Professors [REDACTED] who will come on board at a later date.

(3) The actions required for these two different groups are different and this distinction must be kept in mind in the future.

(4) Emphasis is placed on the need of this office to notify personnel of the date on which the consultants (both groups) will complete their work in order that they may be officially debriefed and their passes picked up. It is the responsibility of Personnel to perform this function.
